Prescription

I transferred my prescription for skin cream from Kiser to CVS. With the Liberty prescription card I only paid \$5.43 for my prescription that normally would have cost me \$22.00. This plan is phenomenal!!

Thanks to your Protector Plan, I saved over 73% on my son's prescription for Wellbutrin XL, 300 mg. at Walgreens. It would have been \$446.49 and with the Home Delivery it only cost me \$118, a savings of \$328.49! Thank you Liberty!

"My son's doctor wrote out a prescription for the brand name drug called Vibramycin for \$422.30, 90 days. Using the internet drug search I was able to ask about alternative drugs which ended up only costing us \$14.85!!"

I had to go into Rite Aid to get my prescription. The pharmacist was by herself as it was on a Sunday. I gave her my card and for some reason she couldn't get into her system. She told me to pay her for the prescription, which was \$38.98 and to come back in a couple of days and she would refund me the difference. So a few days later, I went back, gave her my card and the receipt from the purchase. She refunded me back \$32.66. I am so thrilled to be able to tell my own clients of my experience.

Dental/Vision

My husband just got back from the dentist we are using through Liberty and it is saving us almost 50% on a tooth extraction!!!! This is the first time either of us have used the card, and I am amazed at how much it is saving us.

I went to the dentist twice in June; the first visit was for a general cleaning and x-rays. The second was for five fillings. I'm delighted to say that my Team Liberty membership saved me a total of \$615 on those two visits! This alone has more than covered my membership fees for the entire year. Thank you for providing such a valuable service.

I will gladly show my receipt to anyone one where I purchased new glasses and saved \$132.98 with the Liberty plan. That was a 35% discount.

A quick note to let you know how pleased I am with the vision benefits. We saved a total of \$338 on lenses, frames, and exams. The best part was the money savings, but not to be overlooked was the fact that we were treated pleasantly and our business was appreciated. We look forward to using the plan again.

My wife and I recently had a dispute with a nationally known car rental company in that they attempted to charge us erroneously for an extra week. After several good faith attempts to rectify the situation, we contacted our Liberty attorney. The attorney wrote them a letter and within a week we had our satisfactory settlement.

I was about to enter into a written agreement and decided to ask my plan attorney to look it over. He advised me not to sign it and suggested changes to protect my interests. I know this advice saved me a lot of trouble and money.

We recently witnessed a family friend burden the heartaches and headaches of settling her parents' estate. Neither of them had a last will and testament. What a mess! I heard about the Liberty Legal Plan and got it for my parents. One of the best benefits is the ability for each of them to have their will prepared at no cost. What a tremendous benefit. Now my mom has piece of mind. She won't be leaving such a terrible burden on her children. Thank you Liberty!

Accidental Medical w/ AD&D

My son was playing in the back yard with some of his friends. He fell off the tree house ladder and broke his arm. My Liberty Plan allowed me to receive a reimbursement of the medical bills minus the deductible. I was only out \$100 of a \$1700 bill. Thank you Liberty!

It is piece of mind knowing that if some unfortunate accident occurred, that my family members would be covered with the accidental death and dismemberment benefit of my Liberty Plan.

I was out doing some early holiday shopping and while walking across the parking lot I slipped on some ice and broke my ankle. Thanks to Liberty, my emergency room visit was my only positive experience involving me that day. I didn't have to pay anything at the time of my visit and the desk clerk was willing to file my reimbursement claim for me. Thank you Liberty!

Because my employer recently reduced our insurance coverage, which increased our deductible; with my Liberty plan, I was able to file a claim and be reimbursed what would have been a full out-of-pocket expense. Wow, what a great benefit.
